1. GENERAL INFORMATION

ACTIVITY PROGRAM

Staying at Merricks Lodge and participating in our activity program can provide participants the opportunity to:

- Develop effective communication and problem solving skills
- Share ideas respectfully and collaboratively within group situations
- Act responsibly and learn to accept consequences
- Help and support each other
- Gain awareness of human impact on the local environment to encourage students to foster sustainable practices
- Interact with and gain further knowledge of local flora and fauna and the local landscape
- Extend personal boundaries and comfort zones
- Develop meaningful relationships
- Allow time to reflect about what it is like to be a leader and / or a supportive follower

Many of these outcomes can be aligned with Australian and Victorian curriculum and all incorporate cross curriculum priorities.

Our Program Manager will contact you to design your program activities based on the group's camping goals and objectives. You will then be provided with a draft program and once activities are confirmed will form the basis of our formal quote.

On-site activities at Merricks Lodge include initiatives and team challenges, canoeing, high ropes challenge/tree climbing, an introduction to snorkelling, mountain biking, raft building, archery, kitchen harvest garden, pond dipping, bush cooking and line orienteering.

Details of the standard operating procedures for conducting specialized activities offered by Merricks Lodge are included in our Activity Plans along with their risk assessments. The camp coordinator must ensure that School staff assisting our Program Facilitators are familiar with this information. The roles of the School staff member will be clarified in discussion with the Program Facilitator prior to each activity.
